Product Description

Wire Drawing Dies, Diamond Dies

1. Description:

Diamond dies are used for precision drawing of various metal wires. We provide products that satisfy our customers' growing demands for precision and performance, by assuring high quality using state-of-the-art technology, and by making sure to confirm the following five points all the time.

Selection of correct types of raw diamonds
Proper die hole profile according to wire materials
Strict compliance with size and circularity tolerances
Satisfactory mirror polishing of die hole surfaces
Firm and accurate mounting
