# Rough 0.0005MM Roundness PCD Drawing Dies Semi Finished Polycrystalline Diamond Dies

ME&WE DIAMOND GRINDING WHEE

# **Basic Information**

• Place of Origin:

ME & WE

- Model Number:
- Minimum Order Quantity: 1 Piece

ME & WE

mwpcdtools.com

- Price:
- Packaging Details:
- Delivery Time:
- Payment Terms: T/T, L/C, Western Union

China D6 - D36

Negotiable

Carton, Box

5-10 work days

200 pieces per day

Supply Ability:

ME&WE PDC DRILL BIT

# **Product Specification**

- PCD Drawing Dies:
- Size:
- Hole Type:
- Casing:
- Type:
- Transport:
- Highlight:
- Customized Size Round Stainless Steel Mold Tool By Air **Rough PCD Drawing Dies**,

Polycrystalline Diamond Core

0.0005MM Roundness PCD Drawing Dies, Semi Finished Polycrystalline Diamond Dies

### Rough Semi-Finished PCD Drawing Dies, Polycrystalline Diamond Dies, Wire Drawing Dies

## 1. Description:

Provide moulds with different processing degrees according to customer requirements. Rough Semi-Finished PCD Drawing Dies: casing + drilling hole+ refurbishing

#### 2. Specifications:

Size(inch)	Size(mm)	Tolerance(mm)	Roundness(mm)
≤0.0039	≤0.100	0.001	0.0005
0.00398~0.0079	0.101~0.200	0.001	0.0005
0.00791~0.0197	0.201~0.500	0.002	0.001
0.01972~0.0394	0.501~1.000	0.003	0.0015
0.03941~0.0590	1.001~1.500	0.005	0.0025
0.0591~0.07870	1.501~2.000	0.007	0.0035
≥0.0788	≥2.001	0.01	0.005

#### 3. Inner Geometry:

Inner geometry of diamond dies combined with "Entrance, approaching, reduction, bearing length and exit part". a. Entrance: For wire entering, prevent the dies from wire hurting.

b. Approaching: Make the wire to be accessible for lubricant.

c. Reduction : The wire begins to transform from original diameter to smaller diameter.

d. Bearing: The wire achieves to the final diameter.

e. Back Relief: Prevent the final wire surface from scratching.

f. Exit: Wire exiting.

## 4. Advantage:

Moulds with different processing degrees can effectively help customers save processing time.
