ISO9001 Rock Drilling Round Drill Cutter Round Cutting Drill

Our Product Introduction

for more products please visit us on mwpcdtools.com

Basic Information

- Place of Origin: China
- Brand Name: Me We
- Certification: iso
- Model Number: 1308
- Minimum Order Quantity: 100pcs
- Price: USD 3-10 /pc
- Packaging Details: Carton
- Delivery Time: 3-10 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000 pcs per3-7days

Product Specification

- Type: Drill Bit, Cutting Tools
- Certification: ISO9001
- Size: 0808, 1005, 1008, 1304, 1305, 1308
- Usage: Rock Drilling
- Advantage: High Performance
- Packing: Plastic Box
- Highlight: **ISO9001 round drill cutter,**
Rock drilling round drill cutter,
1008 round cutting drill bit

Product Description

PDC Cutters for Geological exploration anchor drill pdc core bits

Mining PDC cutters for anchor bit have excellent performance in coal mining supporting field. We are committed to increase the drill bit impact resistance to meet the requirement of high drilling speed and complicated formation. We develop flat PDC cutters, cambered PDC cutters, Spherical PDC cutters for different drilling requirement. Meanwhile, we develop higher wear resistance PDC cutters with the life increase about 30% and more.

PRODUCT SPECIFICATION

Specification	Standard cutters	Domed cutters	Cutters with big chamfer
1005			
1304			
1305			
1308			

We will tailor your customized PDC cutters according to your demand.

APPLICATION

Our mining PDC cutters can be used for anchor drill bits, coal mining drill bits, matrix bit, core bits, non-core bits. We can supply different cutters which can be suitable for soft, soft-medium, medium hard, hard and tough formations.

FEATURE

1. Correct source, selection, design and pre-treatment of micron diamond powder and tungsten carbide substrate.
2. High abrasion resistance and impact resistance.
3. Various size and type satisfied customers.

Additionally, small cutters produce smaller cuttings while large cutters produce larger cuttings. Large cuttings may cause problems with hole cleaning if the drilling fluid cannot carry the cuttings up the annulus.
