Product Description

PDC Cutters for Oil Sand Drilling Bearing Road Milling pdc core bits pdc cutter manufacturers

PDC bits are designed for high speed drilling in shale, limestone, and sandstone formations. Unlike roller cones, these polycrystalline diamond compact (PDC) drill bits are one piece bodies with no moving parts. The fixed-cutters shave away the rock, making it possible to operate with higher rotation speeds more efficiently in consolidated formations.

PRODUCT SPECIFICATION

Standard sizes of PDC cutters are shown below.

Item	Diameter(mm)	Height(mm)
1308	13.44	8.0
